2. Very great importance is attached to the delivery of the "Dosierungszuteiler"

them to greater effort and offering them a cash bonus. A lieutenant colonel
of the SAU visits the plant every day and checks on the progress of the
production of the "Dosierungszuteiler". A German driver employed by one of
the firms which collect these parts for further processing has stated that
they are subsequently sent on by his firm direct to a factory near Moscow.

3. The Reglerschränke were collected by vehicles on
3 November 1950.
